ECO FRENI DOT 4

BROCHURE

DESCRIPTION

Synthetic fluid, glycol ether, polyglycol and glycol ether ester-based, formulated for use in brake and clutch motor vehicle hydraulic systems.

AUTOMOTIVE PERFORMANCE LEVELS

SAE J 1703

SAE J 1704

ISO 4925/05

FMVSS 116 DOT 4

APPLICATIONS

ECO FRENI DOT 4 is fully suitable for any brake system (disc brake, drum brake, clutch) of passenger cars, motorcycles, lorries, agricultural machineries and tractors. It is mixable with all synthetic brake fluids of good quality.

It is advised to change the fluid of the brake system when recommended by manufacturers of the vehicle.

PERFORMANCES

High boiling point, to ensure a safe working of brake systems, despite the moisture absorption during service.

Safe behavior against the “vapour lock” formation, caused by the highest operating temperatures.

Very high stability at low temperature.

Good viscosity/temperature trend: it ensures a satisfying viscosity in a wide range of operating temperatures.

Very good protection of ferrous and non-ferrous metals.

Fully compatibility with elastomers in brake systems.

Good lubrication of brake system mobile parts.

High thermal stability for all service life.

CUSTOM PACKAGES AVAILABLE

20 AND 25 LITERS CANISTER

200 LITERS DRUM

1000 LITERS CISTERN

TANK TRUCK
