ECO GREEN FLU FOOD

BROCHURE

DESCRIPTION

High performance antifreeze liquid, propylene glycol-based, that contains inhibitors and anti-corrosion and anti-cavitation additives, particularly suitable for the food industry.

The product has a high anti-corrosion effectiveness with concentrations over 35%.

APPLICATIONS

ECO GREEN FLU FOOD is recommended in circuits of food industry;

it can be also used, if opportunely diluted, in industrial cooling plants

and ecological plants.

PERFORMANCES

It doesn't contain hazardous and it is fully biodegradable. Anti-corrosion protection, stable until 120°C. This stability is obtained thanks to a new inhibitor formulation conception and a new control methodology.
